August 2021 - Present

Study adult and child neurological and cognitive control mechanisms, causal inference, rational and moral decision making, and how they understand their own and others' mental states. I use reach tracking technology (RTT) to study inhibition and intuitions on fairness, specifically in behavioral economics, theory of mind, risk taking, and selective learning.

UNDERGRADUATE RESEARCH EXPERIENCE

Computational Neurolinguistics Laboratory
PI: Dr. Jonathan R. Brennan
University of Michigan – Ann Arbor
Honors Student, Research Assistant

May 2016 - July 2021

Honors Thesis: “N400 Latency Effect in Lexical Access – A Meta-Analysis”
(Conferred Department High Honors)

Studied the mental structures and computations used to understand words and sentences, and how these processes are implemented in the brain using electroencephalography (EEG) technology.

Shen Neurolaw Laboratory
PI: Dr. Francis Shen
University of Minnesota Law School, Harvard Law School
Research Assistant

April 2018 - Sep. 2018

Studied advances in brain science with law and policy to try and understand what neuroscience can (and cannot) offer the law; researched the intersection between concussion and youth sports law, cognitive enhancement, and EEG recording techniques in witness testimony.

Culture and Cognition Laboratory

Sep. 2015 - May 2016

PIs: Dr. Shinobu Kitayama, Dr. Christina Salvador
University of Michigan – Ann Arbor
Research Assistant

Investigated neurological differences between Asian (data collected at the University of Tokyo) and European individuals and how it creates differences in culture and social norms using EEG.

“David was an amazing TA who was always open to help and made navigating the course so much easier. Although the course was somewhat unorganized and difficult to follow at times, David always helped with the graded assignments as much as he could and made the discussions very interesting to follow. One of the best TAs I've had during my time at UCLA.”

Refugees to College June 2016 - Present
Ann Arbor, MI/Providence, RI/Los Angeles, CA
Founder, Director

I founded a not-for-profit organization that works with refugees, often with significant previous career experience, in navigating the path to college and improving employment prospects. We work one-on-one through consultations to create path to universities, colleges, and better careers. We are recognized internationally by the United Nations High Commissioner for Refugees in Geneva as a part of WithRefugees coalition alongside universities, NGOs, and businesses such as Michigan Law, Yale University, Columbia University, Oxford University, MIT, Barcelona Football Club, Ben and Jerry's, and the International Olympic Committee. We currently have shifted focus to helping refugees out of Afghanistan, Ukraine and Iran, specifically current college students (most especially women) who are hoping to pursue their goals in new countries. I have helped around 25 women leave Afghanistan with their families during the Afghanistan crisis in 2021. www.refugeestocollege.org

University of Michigan Office of Diversity, Equity and Inclusion Sep. 2018 - May 2020
Ann Arbor, MI
Student Advisory Board

I was appointed as the ambassador to the University of Michigan Office of Diversity, Equity and Inclusion Student Advisory Board from the School of Music, Theater and Dance to address systemic racial, economic, and social issues on campus. I worked with the director on issues regarding economic stability for students and student workers, freedom of expression issues on campus, and voter turnout.

Engaging Scientists in Policy and Advocacy (ESPA)
Ann Arbor, MI
Co-Founder, Board Member

April 2017- August 2019

I cofounded a non-profit with graduate students in the biomedical engineering department and medical school neuroscience program at Michigan that advocates for a pro-science agenda in local and state legislatures. I worked to improve scientific understanding in Michigan, advised political candidates in the state of Michigan and in neighboring states with science backgrounds, and made science more accessible to the public. <https://sites.google.com/umich.edu/espa-umich>

Arrived.US
Ann Arbor, MI

April 2017 - August 2018

Director of Institutional Outreach, Immigration Policy Researcher

I joined a Silicon Valley-based non-profit through Google that developed an android and iPhone application which looked to educate immigrants who have already arrived in the US. This was done through a newsfeed on the latest news and trends in immigration, and a knowledge bank of researched answers to the most important questions. I contacted, expanded and oversaw the knowledge bank in the app through formal partnerships with immigration law firms and organizations in need of Arrived.

OTHER EXPERIENCE

Margolis & Cross PLC
Ann Arbor, MI
Law Clerk

June 2020 - July 2021

I joined a criminal defense, civil rights, appellate law firm where I reviewed medical records, court filings, precedent, and contacted potential clients and maintained communication with

current clients. I was involved in writing all filings – complaints, appellate briefs and other pleadings. I prepared attorneys for depositions and mediations. I completed legal research for discovery and trial. I helped write and file motions/briefs for a large exoneration defense case from 1994 murder trial currently in Michigan State Supreme Court.

April 2016 - August 2021

Student worker for safety, enforcing facility rules and regulations and wellbeing of general swimmers at Michigan’s pools. Red Cross CPR/AED/First Aid/Lifeguarding Skills Certified.

Hon. Timothy P. Connors:

May 2018 – Dec. 2018

Michigan State 22nd Circuit Court/Peacemaking Court, Wayne State Law School

Ann Arbor, MI

Court Legal Intern

I worked for a state judge on the family, civil, and child abuse and neglect dockets. I observed the judicial process, court procedure, and legal argumentation. I collected data which supported the scientific importance of the Native American Peacemaking Process for the Michigan State Court. I personally commiserated with the Michigan Supreme Court on the potential benefits of neuroscience/psychology in the courtroom, specifically on child abuse and neglect dockets. I also audited a class at Wayne State University Law School on litigation titled “Trial Advocacy.”
